Dhapasi, Kathmandu

Project Fact Sheet

Name of Project	Durable Solutions phase II
Working Area	Earthquake affected 31 districts
Contact Person	Jagat Basnet
Contact Number/Email	9851081197/ jagatb@csrcnepal.org
Focal person name:	Rabindra Lamichhane
Focal person phone:	9858423785
Focal person email:	rabindra@csrcnepal.org
Project's Partner/s	Consortium partner :- People in Need (PIN) Funding partner :- DFID
Project Summary [Not exceed 1000 words]	The NRA has now ratified five separate policies pertaining to the relocation of and durable resolution for people both displaced by the earthquake and at risk of future harm of displacement by geo-hazards. There is currently strong political will among various levels of leadership within the NRA to implement and begin resolving land-related geo-hazard issues and a framework through which to address the various categories of geo-hazards now exists. While a substantial amount of the related policy needs to be clarified in terms of detailed procedures and processes, many of government-supported durable solutions have been developed to a point at which implementation works can clearly begin. PIN and CSRC are proposing a management oriented consortium based on equal partnership with strong expertise in protection & land rights to scale up the implementation of the NRA's durable solution programs in order to ensure that the affected households are put on the path to resilient reconstruction.
Project Objective/s:	<i>Facilitating the implementation of durable solutions for households at risk of or displaced by geo- hazards.</i> <ul style="list-style-type: none">• The consortium will enable the NRA to continue the design, scale up, and implementation of durable solution programs to ensure that GDPs, PDPs and landless households are enabled to reconstruct their shelters on safe land. The Secretariat will provide the NRA, wider-stakeholders, and consortium with a range of technical and information management services to facilitate durable solutions, communicate the impact of the work, develop additional policies and track the progress of Durable Solutions over the next two years. Within this output the consortium will also work with sub-national stakeholders (newly

	<p>elected representatives and district NRA offices) in order to ensure they are informed and have capacity to support this process.</p> <ul style="list-style-type: none"> • The consortium will support the direct implementation of durable solutions in three ways. First, the consortium will ensure GDPs and PDPs are adequately informed about the relevant policies, their communities geo hazard categorization and available durable solutions. Secondly, the consortium will ensure that households have the critical life documents needed to access government designed solutions. Lastly, the consortium will assist in ensuring that households are supported to enroll in both relocation programs and the Rural Housing Reconstruction Grant. This work will be managed through a secure data management system that is integrated with the NRA’s existing systems. • The consortium will lastly focus on building the resilience of displaced and relocated households through protection, preparedness and the provision of technical assistance. Within this output, the consortium will provide households with basic technical assistance in planning their new communities and shelters – promoting compliance with building codes and promoting climate smart community planning. Secondly, the consortium will ensure the long-term negative impact and protection risks associated displacement, landlessness, and geo hazards are mitigated until durable solutions can be reached. 	
<p>Expected Results (With indicators)</p>	<p>Impact:-</p>	<ul style="list-style-type: none"> • SOP and Data management platform created and transferred to responsible government agency at end of project for continuation and scaling of work. • 3,000 HHs successfully relocated and supported to get on the building path through government and consortium assistance.
	<p>Outcome 1:-</p>	<ul style="list-style-type: none"> • 100% of eligible GDP, PDP and landless who choose to apply are successfully relocated through the grant scheme.
	<p>Outcome 2:-</p>	<ul style="list-style-type: none"> • 100% of eligible GDP, PDP and landless households who want to enroll within the RHRG receive the first tranche.
	<p>Outcome 3 :-</p>	<ul style="list-style-type: none"> • 50% of relocated and enrolled households that rebuild DRR-compliant shelters
<p>Duration:</p>	<p>[15 February 2018 to – 15 February 2020]</p>	
<p>Total Budget:</p>	<p>NRP- 80,610,649</p>
