Project Fact Sheet

Name of Project	PRATIBADDHA-II, Together for Disaster Preparedness and Early Action in Landslide Affected Hills Area of Nepal
Working Area	Sindhupalchok - Bharabise Municipality and Bhotekoshi Rural Municipality Rasuwa - Naukunda and Uttargaya Rural Municipality
Contact Person	Jagat Deuja, Executive Director 01-4957005, 9851015145, deujaj@csrcnepal.org
Focal person name:	Gopal Krishna Basnet, Project Coordinator
Focal person phone:	9854045724
Focal person email:	gopal@csrcnepal.org
Funding by	EU-Humanitarian Aid
Consortium Partner	People In Need (PIN) and Save the Children (SC) Nepal
Project Summary (Not exceed than 1000 word)	<p>Building on achievements and learnings of PRATIBADDHA-I and gaps identified, the Action aims to work in 4 municipalities most exposed to landslide risks in Bagmati province, where the Government of Nepal (GoN) implements pilots designed to improve humanitarian preparedness and response.</p> <p>The Action aims to unlock bottlenecks that prevent households at risk of landslides (categorized as per Government of Nepal (GoN) guidelines as CAT II – in need of mitigation, and CAT III – relocation) and at risk of floods from benefiting from improved disaster preparedness and early action. This will be achieved by putting vulnerable households at the center of risk analysis, and focusing on multiple interventions implemented by municipalities and the households. Specifically, the Action will engage municipality representatives, communities at risk and key stakeholders across three tiers of the government to commit and work together to 1) implement nature-based solutions aimed at disaster mitigation 2) localize forecasting, plan and implement early action leverage the governmental Social Protection (SP) programmes before and during the times of crisis.</p> <p>The Action will work with at least 110 representatives across 21 governmental organizations from three tiers of government, and will directly benefit 62,971 people from 4 municipalities. Additionally, the Action will contribute to broader topics that are fundamental for GoN to be better prepared in case of future humanitarian crisis in hill areas of Nepal.</p>

	First, the action will facilitate exchange of experts and practitioners on landslide forecasting and Early Warning System (EWS); second, the Action will use the evidence from kickstarting Shock Responsive Social Protection (SRSP) in hill areas to inform GoN's SRSP guidelines.
Project Objective	<p>Principal objective</p> <ul style="list-style-type: none"> • To increase the resilience of communities at risk of landslide and flood in hill areas of Nepal <p>Specific objective description</p> <ul style="list-style-type: none"> • To strengthen the capacities of communities at risk of landslide and flood, and governmental officials at the local, provincial and federal levels, to plan, implement and mobilize resources for disaster preparedness and early action
Expected Result	<p>Result 1: At Risk, Communities benefit from landslide disaster preparedness and mitigation measure</p> <p>Result 2: At-risk communities and governmental officials have increased capacities and access to forecasting and early action.</p> <p>Result 3: At risk, vulnerable individuals and governmental officials have improved access to and use of SSA and PMEPP before and during the crisis.</p>
Target Group	Landslide affected CAT II and CAT III HHs/communities of 4 local governments.
Total targeted beneficiaries	62971
Duration	1 st July 2022 to 28 th February 2024
Total Budget	NPR. 45,358,568/-
