Nissa gives us hopes and strong evidence for the land ownership certificate.

A total of **2455** landless and informal settlers have received Nissa at Saptakoshi and Katahariya.

Both Municipalities have been working towards the systematic inclusion of landless and informal settlers into government designed durable solutions.

Municipality	Landless Dalits	Landless Squatters	Informal Settlers	Total
Saptakoshi	535	248	910	1693
Katahariya	432	330	0	762
Total	967	578	910	2455

We didn't know about Nissa. Because of the rumor that they take us to the forest area and we would not be given the land where we lived, we hadn't gone to collect Nissa. We understood everything today. What is Nissa, we know its importance and usefulness. If the ward had aware us in this way, we would have been taken it earlier.

We learnt that publishing written notice is not enough in motivating landless and informal settlers for receiving Nissa. Community mobilization for awareness raising and using various means of communication is equally important and necessary.

Nissa distribution has been started from ward no. 5 and soon we will be completed in all wards. We would like to thank Durable Solutions (DS III) team for this progress, without their facilitation this would not have been possible. The verified list will be endorsed by the Municipality board and start the process of land measurement coordinating with the National Land Commission District Committee, Rautahat.
