Land in Data Statistical Information and State Interventions

Community Self-Reliance Centre Kathmandu 2023

Forewords

Foreword

The report "Land in Data: Statistical Information and State Interventions," is our small efforts, and believe this will take us on a journey through the vital connection between land, data, and land governance. The aim of this report is to consolidate and regularly update the fragmented land-related statistics in Nepal. It has been prepared with the intention of collating available data, bringing them together.

CSRC has a reputation for skill fully navigating numbers and this report is a testament to its commitment to providing information that truly matters. "Land in Data" isn't just about cold facts; it's a tool for everyone—government leaders, researchers, and everyday citizens—to comprehend the challenges and opportunities tied to our land.

Data isn't just about figures; it's a key to understanding the lives and aspirations of the people in our country. This report acts as a compass, aiding us all in making informed choices for a brighter future where everyone can thrive on the land we share.

We are indebted to our former chairperson Dr. Suresh Dhakal for his tireless contribution to bring the report in this shape. We extend our special thanks to Action Aid Nepal for supporting for this important work. CSRC invites all readers and researchers to provide constructive feedback and comments, fostering continuous improvement in the quality of this report.

Thank You

Jagat Deuja,

Executive Director

1. Summary of selected data on land and other basic information

This section (Section A) presents some relevant statistical information on land and other basic information. The majority of the data has been drawn from the recent National Population and Housing Census 2021 (NSO 2023) and National Sample Census of Agriculture, Nepal 2021/22 (NSO 2023) and other sources, which are listed at the end of the summary table.

The summary table presents the most recent data on land and other relevant information, which will be regularly updated and upgraded with the addition of new sets of data or whenever new data is generated in the relevant fields.

General	
Country area	147,181 sq km
Administration	7 Province 77 districts 753 local-level government 293 municipalities (6 metropolises, 1 sub-metropolis, and 276 municipal councils). 460 rural municipalities
Agro-Ecological Zones and Wet- Dry Land	Mountains 22.7%; Hills 50% (High Hills 20% & Middle Hills 30%); Tarai 27% (Inner Tarai (Siwalik) 12.78% & Plains Tarai 14.3%)
	According to the 2021/22 agriculture census, out of a total of 2,218,410 hectares, 1,429,981 hectares are classified as wet land, while 788,429 hectares are classified as dry land. Over the last 10 years, there has been a decrease in the total land area, resulting in a corresponding 9.7% decrease in wet land and a 16.3% decrease in dry land.
2. Households an	•
Households (hh)	The total number of households has increased from 5,427,302 in 2011 to 6,666,937 in 2021, an increase of 23 percent. The total number of conventional (non-institutional) households in 2021 is 6,660,841 which was 5,423,297 in 2011.
Average household size	The census 2021 shows that the average household size is 4.37 persons per household whereas it was 4.88 in 2011. By ecological belt, the average household size is 4.33 persons per household in the Mountain region, 3.99 in the Hill, and 4.73 in the Tarai region. The average household size is the highest (5.94) in the Rautahat district and the lowest (3.49) in Gorkha and Dolakha districts.
Population	The total population of Nepal, as of the census day (25 November 2021) is 29,164,578, of which the number of males is 14,253,551 (48.87 %) and the number of females is 14,911,027 (51.13 %).
	Accordingly, the sex ratio is 95.59 males per 100 females. The total population was 26,494,504 with a sex ratio of 94.16 males per 100 females in 2011.
	The annual average population growth rate is 0.92 percent in 2021. This rate was 1.35 percent in 2011. By district, the annual average population growth rate is the highest in Bhaktapur (3.35%) and the lowest in Ramechhap (-1.67%).
Population density	The population density (number of people per square kilometer of area) was 198 in 2021, which was 180 in 2011. By ecological belt, the highest population density is 460 in the

Table 1: Summary of selected important data

		t is 34 in the Mountain region. The highest population density is 59) and the lowest in Manang district (3).							
highest and lowest	the lowest population (5,65 Rupandehi, Jhapa, and Sun populous districts respectiv	Kathmandu district has the highest population (2,041,587 persons) and Manang district has he lowest population (5,658 persons) among the 77 districts of the country. Morang, Rupandehi, Jhapa, and Sunsari districts are the second, third, fourth, and fifth most populous districts respectively. Mustang, Dolpa, Rasuwa, and Humla are the second, third, fourth, and fifth districts in terms of lowest population respectively.							
Populaion by ecological belt	As per the 2021 census, 53.61 percent (15,634,006 persons) of the total population live in he Tarai region, 40.31 percent (11,757,624 persons) in the Hill, and 6.08 percent 1,772,948 persons) in the Mountain region. The population was 50.27 percent (13,318,705 persons) in the Tarai region, 43.01 percent (11,394,007 persons) in the Hill, and 6.73 percent (1,781,792 persons) in the Mountain region in the 2011 Census.								
Population by province	highest in Bagmati provinc Likewise, Madhesh provinc	he distribution of population by province in 2021 shows that the share of population is the ghest in Bagmati province (20.97 %) and the lowest in Karnali province (5.79 %). ikewise, Madhesh province has the second largest population. Similarly, Lumbini, Koshi, adurpaschim and Gandaki Province are the third, fourth, fifth and sixth respectively in

	-								
	>10 Ropani 924160 Out of the total 6,660,841 conventional households, 86.0 percent reside in their own housing units while 12.8 percent reside in rented housing units in 2021. In the 2011 census, the proportions of the households residing in their own housing units and rented housing units were 85.3 percent and 12.8 percent respectively. According to the 2021 census, 0.6 percent of households live in institutional housing units and 0.7 percent of households live in other type of housing units.								
in house and land	both (land & housing unit) the households with female is an increase of 1.1 percen	Overall, 23.8 percent of the total households have ownership of land or a housing unit or both (land & housing unit) in the name of female household member. The percentage of the households with female ownership of both land and housing unit is 11.8 percent, which is an increase of 1.1 percent point compared to that in 2011.							
	Overall, 31.55 percent of th an increase of 5.82 percent	the total households (6,666,937) are headed by female, which is points since 2011.							

Ladn Tenure	Most of the agriculture holdings in Nepal are owned and operated by the owners themselves. In 2021/22, about 81.6 percent of land holdings are fully owned, one percent (59,091 holdings) are fully rented, 0.2 percent (10,281 holdings) are other type of tenure
	with unidentiied ownership, while 16.8 percent (689,391 holdings) are either partly owned, or rented, or under other arrangements.
Land Fragmentation	In 2021/22, the total number of parcels is 11,583.9 thousand and the average number of parcels per holding is 2.8. Likewise, the Census report shows that the average parcel size has decreased from 0.21 hectares in 2011/12 to 0.19 hectares in 2021/22.
Land Use	In 2021/22, the majority of agricultural land, which amounts to 1730.9 thousand hectares, is used for temporary crops. On the other hand, the land used for permanent crops is only 145.4 thousand hectares. The total area of holdings has decreased by around three hundred thousand hectares, resulting in a decline in both temporary and permanent crops. Over the past ten years, the land used for temporary crops has decreased by 392,316 hectares (18.5%), while permanent crops have decreased by 23,093 hectares (13.7%). The area of temporarily fallow land has almost doubled, reaching over sixty thousand hectares in the 2021/22 census
Pop dependent agriculture	66% households; economically active population engaged in agriculture = 76% in 2011, 66% in 2001 down from 91% in 1981
Agricultural employment	57.3% of population aged 10 years or above are in engaged in agriculture
Registered owners	22141347 registered owner with a total number of parcel of 11,583,900, which was a total of 12,096,400 land parcels in 2011/12
Unregistered occupants	According to the Land Commission on Nepal a total of 918004 application of unregistered occupants: informal and non-formal settlers, have been registered (accessed on 8 Nov 2023). So far, 3748 have already received the land ownership certificates.
Bonded labour	Total number of Kamaiya identified and verified was 27,570. According to the government's claim 27,021 have already been rehabilitated. A total number of Haliya was 16953, out of which 12820 are already rehabilitated by 2019. Harawa-Charawa 69,000 (estimated)
	A Total of 21,966 cases were recroded in the year 2078/79. Of which, 7903 cases were resolved. Howere, almost two-third of the cases, that is 14045 (64%) cases were pending. (<i>Annual Report of Supreme Court of the Year 2078/079</i>)
	So far 15 land commissions have been formed after the restoration of democracy in the country in 1990s. The recent one was formed in the chairmanship of Keshab Niroula on 10 September 2021.

	Gautam		land. NPR 20,76,06,511 revenue generated.
11	Bhakti Prasad	24 Nov	396244 applications registered
	Lamichane	2011	
12	Sharada	16 June	861000 applications registered
	Prasad Subedi	2014	
13	Gopal Dahit	20 Feb	-
		2017	
14	Devi Gyawali	22 March	A total of 1180761 applications, including that of 274960 landless
	-	2020	squatters and 932801 informal settlers, were recorded
15	Keshab Niroula	10 Sep	918004 applications are entered, 3748 land ownership certificate
		2021	distributed.

Note: *During the period 7 commissions were formed, however, 15 chairs led those commissions so far.

3. State-led Land Reform Initiatives: 1951-2023

This section (Section C) provides a quick and brief overview of the land reform initiatives by the government of Nepal over the period of the last 70 years. In chronological order, it includes the major policy intervention or initiative by the state; and the intended or achieved outcomes of them. This is prepared based on the works by Mahesh Chandra Regmi (1978), Community Self-reliance Centre (CSRC) (2021), Liz A. Wily and others (2008), and Nepal Ain Sangrah (different dates) among others. The list of references used is at the end of the table.

This is an informative table and will gradually be updated and revised as new information appears.

Phase I	Pre-1950 Land Reform Not a Major Agenda	Implementation
1768	Unification of the country: Further consolidated the feudal land relations	Several customary practices were undermined.
1860-1	Jimidari regime was introduced at village level to facilitate the expansion of the Tarai	People from the hill and India were attracted to the southern plain to clear and settle and cultivate
1846-1951	Land granted to family members, priest and army officers, called Birta was institutionalized	Southern plain, mostly covered by the forest was brought under cultivation
1880	Legal Code: allowed Birta to be passed to heirs and Jagir to to be transferred or mortgaged.	
1906	Thre firest tenancy reform: the Land Law	Prevented Birta grantees from evicting tenants if they paid their rents.
1932	Rule to limit how much Ukhada landlords could charge the tenants	Limited the exploitation by the landlords
Phase 1	1951-1960 making a slow start	Implementaion
1951	New Constitution bans discrimination on basis of gender, caste or religion for first time	Ineffective
1952		Led to commissions
1953	Jagir abolished with provision for government employees to be paid cash salaries only. Jagir had awarded the army officers and officials rent-seeking control over lands in lieu of salaries	Many gained ownerships of these lands
1952-53		Put recommendations into law (1957) but only (i) implemented
1954		Successful but many other serfs- like labor relations continued lik kamaiya, haliya, harawa-charawa
1954-56	First phase of US-funded Chitwan Rapti Valley Development Project, intended to settle hill people of all classes but in practice served mainly	Early successes not continued with increasing corruption in the project and sister projects

Table Summary of State-led Land Reform Initiatives: 1951-2023

	middle and wealthier groups in search of new land.	
1056	Project to last until 1961.	
1956	Preparation of Land and Cultivators Records Act	Initiated in two districts (Butwal and
	1956: made provision to organize village committees	Saptari) but discontinued. Landlords
	to prepare records on prescribed formats and submit	used the forms to relocate lands
1057	these to Land Revenue offices	under different names
1957		(i) not applied
	maximum 50% of crops, prohibited extraction of	(ii) applied
	tenant's labor above agreed rental share, gave legal	
	security of tenure for tenants who had farmed more than	
1957	one year, interest rates limited to 10% Private Forest Nationalization Act: Transferred	Innalana anto d
1937	ownership of all forest to government, without	Implemented
	compensation. Targeted Birta owners who had forests	
	within their grants in especially the Tarai. In the process	
	also dispossessed forest rights of indigenous communities	
1959		(i) Implemented, benefitting holders
1939	(i) cancelled al Birta rights (tax-free grants of land	who gained even more conformation of
	to favored individuals) making these subject to	their rights but now taxable, and further
	normal taxation (ii) All Birta forest and non cultivated	sent tillers into the non-right category.
	land reverted to the State (iii) Law additionally	Formal conversion of birta land to raikar
	prohibited unpaid labor and	took time, continued until late 1990s
	payments in other than agricultural rents in cash or	(ii) Implemented
	kind.	(iii) Not fully applied
Phase III	1961:1989 Era of Moderate Land Reform	Implementation
1961-63	King adopts a moderate version of land reform including	_
1701-05	action to provide credit to peasants, fertilizer, irrigation	with little impact on land relations
		and limited agricultural support
	sought to advance cadastral survey and new registration	activities.
	of holdings	Cadastral titling was advanced.

1963	Agriculture (New Arrangements) Act: to ensure	Implemented but did not remove
1705	implementation of previous laws abolishing Jagir,	exploitative relations on farm
	Rajya and Rakam	
1963	Lands Act, to be amended several times in the later	Largely ineffective including
	years,	its amendments.
1963	Land Administration Act Complementary to the Lands	Implemented
	Act, making provision for the establishment of Land	1
	Administration Offices in those districts where the	
	Lands Act was made effective, in accordance with the	
	phasing of the Lands Act in three tranches.	
1964	Nepal Resettlement Company established to resettle	Implemented to benefit of middle and
	by now thousands of migrating hill people into the	rich farmers
	Tarai, forming spontaneous settlements (squatter camps)	
	and carrying out a great deal of forest clearance. First	
	scheme was the Nawalparasi Resettlement Project,	
	mainly to resettle Nepalese evicted from Burma. Settled	
	1,504 households on 3,200 ha.	
1964	Guthi lands to be placed under a corporate entity and	Not implemented until 1972
	all rights and liabilities of government delegated to	1
	the Corporation; corporation formally instituted only in	
	1972	
1967	Lands Act (second amendment):	(i) Unjust: converted customary
	(i) Abolished holding of land on communal basis	lands into private lands with loss of
	(Kipat), affecting property systems of indigenous	collective system of land ownership,
	communities and mainly Limbu, by converting all	transfer and management
	holdings into raikar. Some areas granted right to	(ii) not implemented
	continue collective holdings of especially grazing or	()
	forest land in order to secure their support for the	
	Panchayat system, but these exceptions revoked by	
	1974 by nationalization of pastures law	
	(ii) Act also promised confiscation of land	
	wrongfully acquired, targeted sales of land to avoid	
	ceilings	
1968	Department of Resettlement set up to replace the	Successful – for the better-off
	Company, mandated to regularise the tens of squatter	
	settlements in the Tarai by issuing entitlements.	
	Geared to landless and land poor but in practice again	
	only those already with land and resources could	
	successfully secure rights, due to costs and frequent rent-	
	seeking by officials. Some 37,000 migrants settled by	
	Eight Zonal Resettlement Offices.	
1971	Commission investigated corruption and abuse of the	Ineffective, no clear action resulting
	ceiling rules including avoidance with collusion of	
	officials	
1971	Jhora Area Land Act: transferred ownership in three	Effective – but to benefi t of owners
	Eastern Tarai Districts to the settlers & cultivators of	as tenants could not pay government
	forest land lawfully cleared by land owners but	
	absent. Owners compensated with 5 x land tax rates	
	and cultivators required to pay government.	
1972	Guthi Sansthan (Trust Corporation) Act, amended in	Guthi Sansthan has been unable to
	1976, 1984, 1986 and 1992. Established to manage	take full stock of land under Guthi
	all state trust lands. Responsibility to conduct all	of various types. As a result,

	religious and philanthropic activities transferred to Guthi Sansthan (Guthi Coproration)	misappropriation and corruption
1972	Scheme started to help tenants buy out landlord but	Ineffective
	without fixed prices landlords continued to sell to other landlords	
1973	Under new Land Rules under Lands Act 1964 the	This deprived genuinely deserving
	order of benefi ciaries changed to enable institutions to gain share of redistributed land	land poor
1973	National Parks and Wildlife Conservation Act Provides inter alia for exclusionary control of designated parks by State, particularly dispossessing and/or affecting indigenous groups in the 19% of the country under Parks	Implemented, dispossessing numbers of indigenous groups together with infringement on rights to use these areas
1974	Nationalization of Grazing Lands Act Irrespective if registered or not, all pastures transferred to Government, except where they are less	Implemented VDCs now collect grazing fees. Undermined indigenous systems for
	than the ceiling for that area (hills, mountains, Tarai). Compensation to be paid. Management to be handed over to VDCs and which may levy fees for grazing use	pasture management, creating open access problems
1976	Amendment to Guthi Act (i) limiting powers of Guthi Corporation in management of Guthi lands, including transfer of administration of Chhut Guthi (Guthi where rights held by individuals) to District Land Revenue Office (ii) Also abolished Jimidari system on Raj Guthi lands in the Tarai and imposed limitation of extraction of rent to 50% of principal crop. The tenancy right able to be sold to others. Ceilings to apply to Guthi land	Implemented
1977	A new attempt at organized settlement of the Tarai, in the Dhanewa Project which settled 4,026 migrants families on 4,045 ha by 1988. Did not include significant numbers of true landless	Implemented – in favour of better off
1977	Land Acquisition Act Upheld Raikar (private property) right to claim compensation in event of compulsory acquisition by state for public purposes and special purposes, opening way for redistribution purchases. Tenant to receive 25% of compensation to be paid to owner	Not well applied; no uniform system for compensation allowing manipulation, and limits compensation to poor on marginal lands or those who are unregistered occupants.
1978	Land Revenue Act; provided for District Land Revenue Offices replacing Land Tax and Land Administration Offices, responsible for complete registration records, and receives taxes and fees on transactions. Lays down rate for land taxes in accordance with strata. Law also prohibits cultivation of government or public land and in effect declares all unregistered land to be public land.	Empowered district level significantly, but vulnerable to corruption
1979	Revitalization of the landless peoples' movement triggered by student protests. Minister of Lands pledges to give titles to all who till in the Tarai and establishes Sukumbasi Resettlement Selection Committee. Settled some 400 landless out of 32,000 families in three western Tarai districts.	More rhetoric than delivery, most of the landless never gaining title

1986	Amendment to Guthi Corporation Act Allowed conversion of Guthi land into Raikar (private) by paying specified amount to Guthi Sansthan	Biased to better-off Problematic as tenants have to pay value of land whereas tenants on non-Guthi land acquire land virtually free
Phase IV	1990 – 2005 Democratice Era, New Initiatives	Implementaion
1991	Cooperatives Act Did not provide specifically for farmer cooperatives, mainly geared to marketing cooperatives	Effective for marketing
1992	Water Resources Act Provided ownership rights of water to the State but grants use rights to individuals and groups and enables the latter to form legal entitles.	Drinking water and household use put on top of priority on water use, followed by irrigation.
1992	Supreme Court ruling of 1992 Rules that bonded labour is illegal following case submitted by a civil society organization (INSEC) requested Supreme Court to abolish bonded labour.	Delayed application; only in 2000 did the government announce through executive order abolition of the Kamaiya system
1994-95	 High Level Land Reform Commission (Badal Aayog) Key recommendations - All Guthi land should be converted into raikar and subject to taxes All tenants should be identified and registered, and given 50% of the land cultivated by them Significant lowering of ceilings Tarai 3 ha, hills 2 ha, mountain 4 ha, Kathmandu Valley 1 ha, urban areas: Kathmandu Valley 0.5 ha, all other urban areas 1 ha Establishment of a Land Bank to do financial operations on land in implementing the 	Partial implementation only Guthi conversion, Land Bank Commission and other institutional developments not implemented Implemented in law: 50% land entitlement implemented for registered tenants only. Kamaiya system abolished 2002 and Haliya regime in 2008 Minimum agricultural wages fixed (2003
1997	Amendment to Lands Act 1964 Decision to partition tenanted land and to abolish traditional tenancy altogether - (i) Transfer of 50% owners' land to Registered Tenants only and (ii) Abolition of traditional tenancy in favour of contract tenancy (formal agreements) with no limitation on conditions	Implemented partially Many registered tenants still without their share till recent. De-secured tenancy occupancy, with landlords refusing tenants to stay longer than one year. Many evictions. Sent tenancy underground with little change in conditions.
1999	Contracts Act: Leases are not subject to ceiling	Barely applied: land leasing under contract rarely practiced
1999	Local Self-Governance Act (i) Provided for VDC and municipalities to levy house and land tax and forward 25% to District Development Committee (ii) Responsible for hearing land disputes including relating to reform objectives	Implemented Has provided VDCs with register information and begin land administration. Also empowered them in principle but not financially as taxes so low Not clear that VDCs taking land dispute resolution powers
1999	Under challenge, a Supreme Court ruling upheld the right of the State to direct subdivision of land owner's land to registered tenant as constitutionally sound	Helped the case for redistribution
2000	Policy statement issued by Cabinet on the need to provide land for landless	Focused on the bonded labour issue again
2001	Amendment to Lands Act 1964 (i) Ceilings reduced but not as low as levels recommended by Badal Commission	

2006Comprehensive Peace Accord signed by 25 political parties recognizes the importance of land reform towards peace implying sustained commitment to redistributionEnsured that land reform not off the agenda in New Nepal2006Act to Amend Some Nepal Laws to Maintain Gender Equality. 2917	The 2017 Civil Code also covers fundamental aspects of property ownership, inheritance, division of matrimonial land and deeds registration)	
2019	Land Policy (2019) -rehabilitation of the landless, squatters and informal tenure-holders for improved housing; -access to land and security of tenure; -tenure security for landless peasants for farming; -women's access to land ownership; -the optimum use of land for sustainable housing.	 Includes six pillars that define the policy framework for land administration and management. These are: security of tenure; access to land; land use; land valuation; taxation and land market; land acquisition; modernization of land administration services.
2019	7 th (2019) and 8 th (2019) Amendment to the 1964 Land Act (which provisioned a land grant to landless Dalits for shelter and resolve the landless and informal settlers land use respectively. To implement these amendment MoLMCPA has formed a High-Level Land Problem Resolving Commission (2020), which has already begun its activities.	Implementation is a slow pace, outcome in the ground yet to be seen.
2019	The Land Use Act (2019) seeks to manage land sustainably through land-use plans (LUPs). Land-use zoning is also seen to be important in mitigating natural and human created-disastrous hazards, and in assessing and applying minimum property valuation and progressive land tax system on lands based on specific use after preparing plot-based records	Local level the Municipality itself functions as the land use council responsible for preparing periodic land use plans and execute them.
2019	 The Fifteenth Plan 2019/20 – 2023/24 Vision: equitable, productive, and sustainable land management. Goal: to develop land management as a foundation for the nation's prosperity in accordance with the concept of sustainable development. Objectives To increase production through proper use of land and ensure the equitable distribution of its benefits. To make accurate and credible geographical information and maps available for planning and development. 	The Plan goes on to say that "It is essential to manage limited available land and land resources in a sustainable way to ensure the constitutionally guaranteed right to property, food security and sovereignty, women's rights and rights of landless Dalits; and to achieve Sustainable Development Goals by 2030"
	-To equip land management with modern technologies and make it simple and transparent.	

as the chairperson of the land commision. He is the 15 th chair of the commission formed after 1990s. 918004 applications of landless fa and 3738 have already received th registration certificat.
